LONG CREEK COMMONS

INVEST IN YOUR BUSINESS' FUTURE!

Do you really want to continue leasing space where you're not in control of the decisions being made? You've invested time and money into getting where you're at in your profession. Take that next step and invest in owning a state-of-the-art office condominium located in a prime commercial development. It's more economical, and the best part is, it's all yours!

LOCATION - LOCATION - LOCATION!

Long Creek Commons is located in the popular Belden Village area which for over 40 years has continued to grow as a center of commercial development. Close proximity to I-77 makes Long Creek Commons' location ideal for clients traveling from Akron, its surrounding areas, and/or the growing Akron/Canton airport.

The buildings and site area are shown only for the purpose of visualization and do not imply owner or developer limitations or requirements.

The 4-acre site is situated just south of Power Resources (see rendering), and will be the home of three brand new, one and two-story condo/office buildings with individual entrances and convenient parking on each level. Units will be designed to accommodate up to 9,060 square feet per level. We'll work with you regarding the size and space you require to meet the needs of your growing business.

CURB APPEAL

Visitors to your office won't have any trouble locating you due to the individual, unique "doorfronts" for each condo unit. The single-level layout allows for convenient parking and individual suite access. Included in the design layout are "landscape pockets" for courtyards and patio areas to provide an office park setting and outdoor break areas for you and your employees.
